

CARBONITE SERVER BACKUP: SEAMLESS SERVER BACKUP FOR UNSTOPPABLE BUSINESS

Built for small businesses, Carbonite Server Backup provides customizable, comprehensive hot backup, ensuring your critical data is protected with the strength of a hybrid solution... in a way that works best for you. Simple to set up and easy to use, Carbonite Server Backup seamlessly and securely backs up your data on your schedule. So you'll enjoy peace of mind while you move the business forward.

PRODUCT FEATURES

- Intuitive interface and centralized dashboard makes it easy to install and use.
- Rapid upload and download speeds allow for seamless backup and quick recovery.
- Hot backup allows you to keep services online and uninterrupted during backup operations.
- Ultimate security and privacy with 256-bit Private Key encryption and SSL so you can rest easy knowing your data is safe.
- Customized scheduling lets you align backup with your business' workflow.
- Hybrid backup combines the security of cloud backup with the speed of local backup, giving you the best of both worlds.
- The ability to protect unlimited servers with just one subscription keeps things affordable.
- Supports HIPAA, GLBA, and FERPA compliance.
